

The team  
**LOVES**

“ Cornelius has done an excellent job of blending the old with the new here. There's a great sense of

atmosphere too... you can almost smell the leftover pizza! ”

Cinema 4D, Photoshop, V-Ray

Work in progress...

“ I've always wanted to create unusual perspectives of common situations in my artwork, so I decided to combine the features of an old-fashioned room with a theme that's very familiar with me: LAN parties. My aim was to create a very dimly lit, dusty look with barely any shadows. All visible and invisible lights are area lights with natural decay ”

**Cornelius Dämmrich**, *Ancient Area Network*, 2011
